ACADEMIC & RESEARCH LITERATURE

EBSCO Host - Business Source Premiere:

EBSCO is the leading provider of research databases, e-journals, magazine subscriptions, e-books and discovery service to libraries of all kinds. For more than 70 years, we've partnered with libraries to improve research with quality content and technology.

With premium full-text content and peer-reviewed business journals, this database is the essential tool for business students. It covers all disciplines of business, including marketing, management, accounting, banking, finance, and more. Indexing and abstracts and full text are available back as far as 1886.

ProQuest - ABI/Inform Complete:

The ABI/INFORM Collection is comprised of ABI/INFORM Global, ABI/INFORM Trade & Industry, and ABI/INFORM Dateline. The collection features thousands of full-text journals, dissertations, working papers, key business and economics periodicals such as The Economist and Sloan Management Review, country-and industry-focused reports, and major news sources like the Wall Street Journal. Its international coverage gives researchers a complete picture of companies and business trends around the world.

Content Type: Scholarly Journals, Working Papers, Newspapers, Blogs, Podcasts, and Websites, Books, Conference Papers and Proceedings, Dissertations and Theses, Magazines, Newspapers, Other Sources, Reports, Standards and Practice Guidelines, Tables, Trade Journals, Wire Feeds, Audio and Video

Scopus:

Scopus is the largest abstract and citation database of peer-reviewed literature: scientific journals, books and conference proceedings. Delivering a comprehensive overview of the world's research output in the fields of science, technology, medicine, social sciences, and arts and humanities, Scopus features smart tools to track, analyse and visualise research.

E-BOOKS

EBSCO E-books:

BusinessCore contains more than 8400 titles covering all disciplines of business, including corporate learning competencies, leadership and management, marketing, project management, business communication, finance and accounting, human resources, sales and selling, strategic planning, and more. These titles will meet the needs of all business professionals, from corporate executives to individual contributors.

ProQuest Ebrary:

ebrary offers authoritative ebooks in a wide range of subject areas, along with powerful tools to help you find, use, and manage the information you need. Fast Facts—Largest selection of 810K+ ebooks, 650+ publishers, 1,350 imprints, Flexible models with guaranteed access

INDUSTRY PROFILING

Economic Outlook:

The Economic Outlook provides CMIE's view on the Indian economy. It interprets new data releases continuously; provides insights by unravelling details and weaves an updated and integrated picture of the economy. Economic Outlook provides forecasts on growth, inflation, fiscal balance, balance of payments, corporate earnings and a host of sectorial indicators. It provides its analytical view explaining these forecasts.

Industry Outlook:

Industry Outlook is a comprehensive service that provides detailed information on Indian industries. It includes the mining, manufacturing, utilities and services industries. **A total of 209 industries are covered.** The service provides detailed historical data on capacity, production, foreign trade, sales, prices, annual and quarterly financial performance of the industry and its detailed break-up by companies, new capacities built and expected to be commissioned, performance of listed companies on the bourses, data culled from the Annual Survey of Industries and from RBI's industrial outlook surveys. Industry Outlook provides insights, outlook and forecasts. It is designed to provide a near to medium term view of Indian industries.

COMPANY PROFILING

Prowess IQ:

ProwessIQ, or Prowess for Interactive Querying, is a powerful internet-based application for querying CMIE's database on performances of listed and unlisted companies. It is simple and easy to use. ProwessIQ provides charting tools and well-formatted reports on performances of companies. The reports provide financial information including analytical ratios and benchmark comparisons. **ProwessIQ consist of 52,565 companies data.**

Corporate actions – More than 100 events updated Data on IPO, Data on F&O, FII Investments, and Global indices etc. Industry Aggregates.

STATISTICAL DATABASE

IndiaStat:

Indiastat.com is owned by Datanet India. Datanet India was established as an IT-enabled private limited company in February 2000 to render its services in the socio-economic information domain. Indiastat.com provides secondary level socio-economic statistical information about India, its states, regions and sector. Indiastat.com is a cluster of 56 associate websites wherein 19 websites are sector-specific, 6 are regional websites and 31 websites are state-specific. Indiastat.com contains all the statistical information available on its 56 associate websites. However data is made available separately on these 56 associate sites just for an ease of navigation. Indiastat.com is now providing facility to create various charts and India's map with state boundaries. The created charts can be saved in .jpg, .pdf and .png file formats and maps can be saved in .png file format. **Weschool LRC has a single login subscription wherein the students/faculty have to come to library to access the same. It is not available through the remote access. Connect with the library staff for further queries.**

Statista:

Statista operates a statistics and data portal, registered under the website www.statista.com, that provides access to statistics and studies on over 80,000 topics and areas of interest. Statista allows users to quickly and efficiently access relevant information on a wide variety of markets and industries. Benefits of Statista services include:

- Industry-specific economic macro data with key indicators of market trends
- Industry-specific surveys on relevant trends and forecasts
- Consumer behavior studies

The Statista database is categorized into 22 industry sectors with approximately 600 markets and industries. Statista collects, evaluates, and publishes key statistics on relevant subjects, providing users with a comprehensive overview of available data on a specific topic.
